House no 108 sector D 2 Nill Block 3 Green Town Lahore Pakistan

SUMMARY

Enthusiastic Junior React Developer with a passion for building responsive and user-friendly web applications. Strong foundation in JavaScript, React.js, and modern web technologies. Quick learner eager to contribute to team success through hard work and continuous learning

EXPERIENCE

Full Stack Developer RL Tech   Jan 2023 · Lahore

- Developed and maintained code for in-house and client websites utilizing HTML, CSS, JavaScript, and React.js
- Implemented responsive design principles to ensure websites render well across multiple devices
- Collaborated with senior developers to identify and fix bugs in existing projects Assisted in the development of a customer portal that improved user engagement by 15%
- "Developed a full-stack Job Portal that enables working women to hire babysitters, cooks, or maids based on their needs, with protected routes for clients. The platform also helps domestic workers (cooks, maids, babysitters) find preferred clients, while an admin panel manages and controls the actions of both clients and candidates."

Junior Web Developer Community Non-Profit Organization   Aug 2023 – Dec 2024 · Remote

- Create customer dashboard with charts and filters using React + Express.
